

Mr. Britt is the Technical Services Manager for the Florida cement division of CEMEX, Inc. He covers both bulk and package cement for the State of Florida. Mr. Britt has been employed with CEMEX since 2005. He started in the industry in 1993 as a field and laboratory technician for a construction building materials engineering facility. His experience includes construction materials laboratory and field management, ready-mix quality control management, and laboratory accreditation. In addition to the FLAPB, Mr. Britt has been involved in multiple industry associations and is the past two-term president of the ACI Suncoast chapter. Mr. Britt graduated from Indiana University in 1989 with degrees in Urban Management and Economics, and is still a proud Hoosier being born and raised in Evansville, IN.
